

## General information

All published articles are accessible to subscribers. Through the open access option, authors have the opportunity to make their papers freely available to all (subscribers and non-subscribers) as soon as they are published.

Please fill in the open access form (p. 2) to indicate your **open access situation**.

If you require open access publication, please fill in the **licence agreement** (p. 4).

If you do not require open access publication, then please fill in the **copyright transfer form** (p. 5).

The filled-in forms should be returned to EDP Sciences through your SAGA account at <https://saga.edpsciences.org> (or by e-mail to [aa.saga@edpsciences.org](mailto:aa.saga@edpsciences.org)).

### ★ IMPORTANT NOTICE

If your institution is a Max Planck Institute in Germany, or part of the National Open Access Agreement in France (e.g. CNRS, CEA, large number of French Universities, ...), then please tick the correct box on page 2 to be entitled to open access free of charge.

The license has to be sent to the production department with your proofs.

In submitting a document to *Astronomy & Astrophysics*, I certify to the Publisher that:

1. I am authorized by my co-authors to enter into these arrangements.
2. I warrant, on behalf of myself and my co-authors, that:
  - The document is original, has not been formally published in any other peer-reviewed journal, is not under consideration by any other journal. If parts from copyrighted works owned by third parties are included (included figures, tables etc.), written permission is obtained from the copyright owners for all uses as set forth in the Journal's Instructions for Authors, and credit to the sources is shown in the Manuscript;
  - I am/we are the sole author(s) of the article and have full authority to enter into this agreement and in granting rights to the Publisher that are not in breach of any other obligation;
  - If the law requires that the article be published in the public domain, I/we will notify the Publisher at the time of submission upon which clause 3 do not apply;
  - the document contains nothing that is unlawful, libelous, or which would, if published, constitute a breach of contract or of confidence or of commitment given to secrecy;
  - I/we have taken due care to ensure the integrity of the article. To my/our – and currently accepted scientific – knowledge all statements contained in it purporting to be facts are true and any formula or instruction contained in the article will not, if followed accurately, cause any injury, illness or damage to the user.
3. I agree to the Creative Commons Attribution License (<http://creativecommons.org/licenses/by/4.0/>).
